Final-semester Computer Science student and .NET / Angular developer with over a year of hands-on experience building and maintaining full-stack web applications. Skilled in ASP.NET Core, Angular, and SQL Server, with a strong foundation in debugging, API integration, and collaborative software development.

ACHIEVEMENTS

- BS Computer Science (8th Semester) student at the University of Baltistan, Skardu — CGPA 3.3.
- Awarded a Merit-Based Scholarship by the Professional Education Foundation (PEF).
- Selected for a competitive, AKRSP-sponsored 3-month Web Development Internship at Qooli Coders (SMC-Private) Limited.
- Recipient of the PM Youth Laptop Scheme 2025 under the Prime Minister's Youth Program.

EXPERIENCE

Software Developer / .NET Developer — Qooli Coders (SMC-Private) Limited *Dec 2024 – Feb 2026*

- Built and maintained features for a Taxation Management System, covering development, debugging, and testing across the application lifecycle.
- Integrated Angular frontend components with ASP.NET Core backend APIs to deliver responsive, data-driven interfaces.
- Diagnosed and resolved application issues through real-time debugging and troubleshooting, improving day-to-day stability.
- Worked alongside senior developers to extend and maintain existing .NET Core / SQL Server systems.

Software Development Intern — Qooli Coders (SMC-Private) Limited *Sep 2024 – Dec 2024*

- Gained hands-on experience in real-world development workflows, including debugging, error handling, and API development with .NET and C#.
- Worked directly with SQL Server to design and query relational data structures, building a foundation for backend development.
- Practiced problem-solving and troubleshooting under the mentorship of senior developers.

Frontend Developer (Angular) — Umm Al-Qura University — Freelance *Jun 2024 – Aug 2024*

- Built the frontend of a university website from the ground up using Angular, implementing routing, components, and services.
- Designed responsive, maintainable UI sections with a focus on usability across devices.
- Implemented forms and data binding to support dynamic page content.

PROJECTS

eSellerGlobal (esellerglobal.com) — *Full-Stack Web Application* *Aug 2026 – Nov 2026*

- Built a full-stack web application using ASP.NET Core, Entity Framework Core, and Angular, covering backend APIs, data access, and the frontend interface.
- Implemented a real-time chat system using SignalR (WebSockets) for instant messaging without page refresh.
- Developed a notification system to keep users updated on important activity across the platform.

AI-Based Digital Marketing Automation Server — *University Final Year Project*

- Designing and building an AI-based server that automates content posting and campaign/trend workflows across multiple social media platforms.
- Working across backend development, automation pipelines, and AI-assisted workflows to support scalable content operations.

Full-Stack Web Development Projects

- Built multiple full-stack applications using .NET, Angular, SQL Server, HTML, CSS, and TypeScript, implementing CRUD operations, REST APIs, and frontend-backend integration.

SKILLS

Technical: Full-Stack Web Development, ASP.NET Core, Blazor, Angular, SQL Server, API Development, Deployment & Production Management.

Programming & Problem Solving: Data Structures & Algorithms, Object-Oriented Programming, Analytical Problem Solving, Debugging.

Research & Academic: Research Writing, Learning Management Systems Research, Software Testing Concepts.

Languages: English, Urdu, Balti.

EDUCATION

BS Computer Science (CGPA: 3.3) — University of Baltistan, Skardu *Jan 2023 – Present*

Pre-Engineering — Public School and College, Skardu *Aug 2020 – Aug 2022*

Science — Baltistan Public School and College, Skardu *Mar 2018 – Mar 2020*
